

liberiDi

Physical Theatre

A photograph of two performers in shimmering gold, sequined leotards and leggings, contorting in a large, clear tub filled with water. The performers are positioned in a way that their bodies form a continuous, flowing line across the tub. The background is a deep blue, and the lighting is dramatic, highlighting the texture of the costumes and the clarity of the water. The title 'WATERBOWL' is overlaid in large, white, bold letters across the middle of the image.

WATERBOWL

One or two artists make evolutions and contortions in a tub full of clear water.

The difficulty and the magic of this performance make every event unique and spectacular...

Included in the cost:

- 2 technicians by Liberi Di
- Performance 4 - 6 minutes
- Choreography by Liberi Di
- Practicability, contributions and charges

Setting up and transport to be evaluated depending on the distance

Excluded: travel, food and lodging

Size structure:

- Outside diameter of the circumference: 180cm;

Dimensions:

- length max: 250 cm;
- width: 180 cm;

Height from the floor:

- On a structure with 3 wheels: 140 cm
- Without wheels: 120 cm.

Weight:

- Support structure in metal = approx. 80 Kg
- Tub in plexiglass = approx. 60 Kg
- Tub contains approx. 1000 lt water = approx. 1,000 Kg
- TOTAL = approx. 1,140 kg (considering the artist, Max weight 1,200 kg).

The structure is on the floor distributing the weight on one of the following ways:

- I. 3 iron feet (diameter 4.2 cm) on the ground that form an equilateral triangle;
- II. on a triangular iron base (without wheels), side triangle 130 cm;
- III. on three rubber wheels, placed at the top of the triangular base.

Technical requirements:

- Availability of 1000 liters of water and the possibility to disposal after the performance
- Heater power supply: point of three-phase 380V / 16A, 5-pole, absorption 6Kw / h / 9A; suitable extension if it far more than 10m away.
- Average time of preparation 6h for build up, 3h for breaking down.
- Lighting: 1 Follow-person (shaper) + 2 lights change color lighting (close-up) of the structure.
- Audio system.
