# INVERNI

*"I remember when I was a child,  
the snow, during the winter,  
that streaked the sky  
with a soft voice and shut  
the mouth to the noises..."*

(Tonino Guerra)

In winter the city becomes grey and cold, just like the weather. During the dark days people lock themselves inside, as if they wanted to find a shelter from the chill, they walk in a hurry to arrive home and find some warmth.

They don't have time to stop and look around, or listen.

Yet the city keeps existing, and thousands of secret stories weave together, for those who can take the time to pay attention, even under the snow.

Inverni is a show that comes from the cold, and that discover again a little magic in an icicle, in a blow of freezing wind, and in every snow-flake. Among incredible acrobatics and bursts of unexpected laughter Liberi Di... shows the world that there is always a reason to return to dream ...
